### **Call for a Comprehensive Investigation, Review, and Report**

With a request that this be forwarded to the appropriate authorities

I, Gregor Röß, as the rightful successor to Jesus Christ of the House of David, Kalki Avatar (Guardian of the Earth and Mankind), hereby demand that you initiate comprehensive investigations and reviews regarding the **22 points** listed below in accordance with the oath of office you took to me, and that you disclose the current status of these investigations.

Furthermore, I order the immediate worldwide revocation of immunity for institutions, companies, individuals, intelligence agency personnel, political parties, and politicians, as well as the initiation of investigations into corruption, deception, and false reporting.

#### **Detailed instructions for processing and reporting:**

1. **Corona / COVID-19:** A comprehensive investigation into which government agencies have implemented measures without conducting their own assessments or reviews, and which companies have been adversely affected as a result or have been forced to file for bankruptcy. In addition, an investigation into the spread of influenza viruses through chemtrails and the deliberate intensification of symptoms through frequencies.
2. **The September 11, 2001, terrorist attacks:** Investigate and identify those who profited from the attacks, and initiate criminal investigations into the suspected controlled demolition of the buildings. Was there a change in ownership shortly before the terrorist attacks, accompanied by an increase in the insurance coverage?
3. **Military weather manipulation:** Military weather manipulation: Testing rainwater and soil samples for nanoparticles and identifying the chemical and metallic substances used in them. Also, the pollutants sprayed worldwide on a daily basis.
4. **Asset Managers:** A comprehensive review of the influence and role of global asset managers.

5. **Stock and Financial Markets:** Examination of trading mechanisms, market manipulation, and systemic risks in financial markets.
6. **Finance:** Critical examination and analysis of the chiral fiat interest rate system and its effects.
7. **World War I and World War II:** Examination of the historical background, causes, and interconnections of the two world wars. In particular, an investigation into which companies supported these wars with raw materials and financing and profited from them.
8. **Food and Ingredients:** Review, risk assessment, and analysis of the addictive effects of refined sugar, as well as the health impacts of toxins and additives such as aspartame, acesulfame K, fluoride, and E numbers in food products.
9. **Tobacco Industry:** Investigation into how toxins, heavy metals (e.g., cadmium, lead, nickel), radioactivity (traces of polonium-210), as well as tar and other harmful substances end up in cigarettes and on the tobacco.
10. **Meat Industry:** Comprehensive review of production conditions, additives, and the meat industry's impact.
11. **Pornography Industry:** Examination of the structures, networks, and impacts of the pornography industry, particularly with regard to child trafficking and those who finance it.
12. **Media Landscape (Radio, Print, Internet, Television):** Examination of the information industry with regard to accuracy, independence, proximity to the government, ownership structures, and objective reporting.
13. **Deceptions and Staged Events Leading to Hostilities:** Investigations into disinformation, deceptions, and staged events that have led to military conflicts (including Afghanistan, Iraq, Pakistan, Yemen, and Somalia).
14. **Crisis and disaster simulations:** Review of all simulations and exercises conducted regarding crisis, disaster, and attack scenarios.
15. **Disclosure of intelligence agencies:** Initiation of investigations into all intelligence agencies, their superiors, and employees, as well as full disclosure of all projects—including those kept under wraps.
16. **Artificial Intelligence (AI):** Review of the current state of development, the companies involved, and the potential risks posed by AI systems.
17. **Media platforms, search engines, and algorithms:** Review of platforms for algorithm manipulation, the collection and analysis of user data, and their influence on content delivery.
18. **Energy Companies and Cartel Structures:** Review of electricity, gas, and oil corporations with regard to cartel formation, economic efficiency, and the preparation of a realistic cost-benefit analysis.
19. **Radiation, Resonance, and Sonic Weapons:** Review of the dangers and effects of installed scalar weapons, sonic weapons, and their use as resonance weapons. Investigation into the regular exposure of people to radiation and sound from cell towers, Wi-Fi, routers, cell phones, and similar devices, which are also regularly used as electronic torture weapons.

20. **Government Organizations:** Investigation into all government organizations regarding their operations, powers, and funding sources.
21. **Healthcare System and Pharmaceuticals:** Review of the mechanisms of action, hazards, and potential for dependency of individual medications. Additional review of clinical pictures and symptoms systematically triggered by the use of frequencies.
22. **Insurance Companies:** Review of insurance companies and assessment of their actual coverage of contractually agreed-upon costs

### Deadline and Evaluation

All investigation results regarding items 1 through 23 must be organized, numbered, and submitted in German to the address listed above by December 16, 2026. The submitted results will then be reviewed by a specially formed committee of experts.

Sincerely,

**Born as Gregor Röß**
